

## المؤتمر السعودي العالمي لطب الأسنان The Saudi International Dental Conference

### RESEARCH & E-POSTER AWARDS

#### EVALUATION SCHEDULE OF FINALISTS

Date: 17 January 2024, Wednesday

Venue: Najd Hall, Radisson Blu Hotel, RICEC

##### GRADUATE DENTIST RESEARCH AWARD (GDRA)

Venue & time: Hall A (morning session)

Timing	ID #	Title	Author's name
9:00- 9:20	24	Formulation and Characterization of Bioactive Nano-core-shell System for Improving Dental Adhesives	Lamia Mokeem
9:20- 9:40	36	Mutagenicity and DNA damage assessment of locally produced nano-hydroxyapatite-silica-glass ionomer cement on human periodontal ligament fibroblasts using Ames and Comet assays	Fayez Niazi
9:40- 10:00	43	ASSESSMENT OF ENAMEL SURFACE PROPERTIES AND DEMINERALIZATION FOLLOWING THE USE OF DIFFERENT ORTHODONTIC BRACKET MATERIALS, ETCHANTS, AND ADHESIVE SYSTEMS: AN IN VITRO STUDY	Rahaf Zawawi
Break (15 minutes)	BREAK		
10:15- 10:35	86	Effect of Polydatin on the Viability and Odontogenic Differentiation of Human Dental Pulp Stem Cells	Rawan Bin Ateeq
10:35-10:55	166	Repair Bond Strength of Two Shadeless Resin Composites Bonded to Various CAD-CAM Substrates with Different Surface Treatments	AlFulwah AlOtaibi
10:55-11:15	189	Etiologies of Excessive Gingival Display in Saudi Population	Rand Alsaif
11:15-11:35	201	Flexural Strength of Advanced Lithium Disilicate Ceramic Material: An Experimental in Vitro Study	Abdulaziz Alghafees

##### YOUNG DENTIST RESEARCH AWARD (YDRA)

Venue & time: Hall B (morning session)

Timing	ID #	Title	Author's name
9:00- 9:20	10	DENTIN CONDITIONING INFLUENCES BONDING OF SELF- ADHESIVE RESTORATIVE MATERIAL	Faisal Arishi
9:20-9:40	51	Submucosal Tramadol Injection in Third Molar Surgery Recovery: A Systematic Review	Elaf Algharbi
9:40- 10:00	139	Evaluation of the Shear Bond Strength of a Tricalcium Silicate-Based Material to Four Self-Adhering Glass Ionomer Materials: An In Vitro Study	nour alkuait
Break (15 minutes)	BREAK		
10:15-10:35	143	Do-it-yourself (DIY) Orthodontics: Exploring Saudi Population Knowledge, Perception, and Awareness of Direct-to-consumer (DTC) Aligner Therapy. A Nationwide Based Survey.	Madawi Alhabib
10:35-10:55	178	Influence of Different Posterior Connector Dimensions on the Fracture Strength of 3D-Printed Resin Provisional Material In-Vitro Study.	MANAL ALQAHTANI
10:55-11:15	188	Enhanced Antimicrobial Properties of Polymeric Denture Materials Modified with Zein-Coated Magnesium Oxide Nanoparticles	Jumana Mazhar

##### CLINICAL CASE PRESENTATION AWARDS (CCPA)

Venue & time: Hall C (morning session)

Timing	ID #	Title	Author's name
9:00-9:15	38	The Application of Topical 5-Fluorouracil to Reduce the Recurrence of Odontogenic Keratocyst	Mohamed Allam
9:15-9:30	65	Exploring Conservative Treatment Approach for External Cervical Resorption with Emphasis on Pulp Preservation and Aesthetics: A Case Report.	Atheer Almojel
9:30-9:45	92	Digital Workflow Using CAD/CAM Mandibular Complete Denture and Maxillary Overdenture for a Patient with Ectodermal Dysplasia: A Digital Clinical Report	Sahar Alotaibi
9:45-10:00	113	Management of Impacted Maxillary Central Incisors: Case Report	Reem Alshihry
Break (15 minutes)	BREAK		
10:15-10:30	117	The Use of Thermoplastic RPD as Esthetic Alternative for Anterior Region with Labial Undercut : Case Repot	Nujud Aloufi
10:30-10:45	141	Treatment of Dentinogenesis Imperfecta type II using Contemporary Adhesive Dentistry	Arwa Alhakami
10:45-11:00	150	The New Smile that Ended Bullying; a Case Report of a Child with Ectodermal Dysplasia	Hanaa Allaf
11:00-11:15	151	Hyperparathyroidism Jaw Tumour Syndrome positive for somatic CDC73 mutation : Misdiagnosed As Extracranial Meningioma Of The Mandible	Shahad Aladhyani

##### E-POSTER PRESENTATION AWARDS (PPA) - DENTIST CATEGORY

Venue & time: Hall A (afternoon session)

Timing	ID #	Title	Author's name
13:00-13:10	20	Assessment of Parental Dental Anxiety, Oral Health Literacy, and Association with Socio-Behavioural Characteristics, Self-Reported Child Oral Health, and Pattern of Dental Visits in Children. A CrossSectional Study	Ravi Kumar Gudipani
13:10-13:20	25	Comprehensive Treatment Planning, Holistic Care Dentistry	Danah Almadhi
13:20-13:30	27	The Influence of Post Material and Ferrule Thickness on the Fracture Resistance of Endodontically Treated Premolars. A Laboratory Study	Abdulaziz Samran
13:30-13:40	66	Association between Interproximal Enamel Reduction and Interdental Papilla in Invisalign® Patients	Maher AlGhamdi
13:40-13:50	133	Effect of cementation technique and cement thickness on the retention and the amount of extruded excess cement in implant-supported restoration	Ala'a Abu-Obaid
Break (10 minutes)	BREAK		
14:00-14:10	155	Treatment of oral squamous cell carcinoma by novel intra-lesional delivery route	Shimaa elsaady
14:10-14:20	175	Effect of in-office Bleaching Treatment on the Simulated Stained Remineralized Tooth Structure	Arwa AlKhalifah
14:20-14:30	176	The Passive Fit Of Different CAD/CAM Screw Retained Implant-Supported Frameworks: An In Vitro Assessment.	Abdulrahman aldakhili
14:30-14:40	187	Utilization of Autogenic Tooth-Derived Bone Graft in The Placement of Implant-Supported Overdenture	Nameer Banjar
14:40-14:50	130	Applicants Selection Process for Orthodontic Programs in Saudi Arabia: Survey of Program Directors	Ghadah Albakran

##### E-POSTER PRESENTATION AWARDS (PPA) - STUDENT CATEGORY

Venue & time: Hall B (afternoon session)

Timing	ID #	Title	Author's name
13:00-13:10	49	Digitally Designed and Milled Verification and Acquired vertical dimension Jigs Generated from Photogrammetry Data Acquisition: A Clinical Report	LAMIA ALSHOWAIL
13:10-13:20	74	Translation and Validation of the Arabic version of The Xerostomia Inventory	Razan Alsahli
13:20-13:30	81	State-level Disparity in Dental Care Utilization and Tooth Loss Among Adults with Disabilities: Findings from Behavioral Risk Factor Surveillance System 2020	Aljohara Alshathri
13:30-13:40	90	Assessment of gummy smiles based on machine-learning algorithms: a preliminary study	Ebtihal Almutairi
13:40-13:50	135	A SYSTEMATIC REVIEW ABOUT THE CONSEQUENCES OF DIABETES ON PERI-IMPLANT THERAPY.	Khalid Mobarki
Break (10 minutes)	BREAK		
14:00-14:10	144	Influence of Surface Treatments and Repair Materials on the Shear Bond Strength of CAD/CAM Provisional Restorations	Zainab Albazroun
14:10-14:20	162	Selection of Dental Implants and Restorations Among Dentists in Kingdom of Saudi Arabia: A Cross-Sectional Questionnaire-Based Survey	Afnan Alharbi
14:20-14:30	165	Flexural strength of 3D printed nanocomposite provisional resin: Impact of SiO2 and ZrO2 nanoparticles and printing orientations in vitro	Rawan Almedarham
14:30-14:40	177	Crucial Insights: Assessing LCU Manuals for Clinicians	Osamah Toras
14:40-14:50	193	Evaluation of the Mechanical Properties, Surface Topographies, and Color Stability of Pink Composites	ABdullah Alhashem
