

04 February 2026
Wednesday

Room 440086
(Ground floor)

Dental University Hospital
at King Saud University

Time	Research Title	Presenter
2:00 pm – 2:10 pm	Gender Influence on The Number of Roots and Root Canal Configuration in Mandibular Premolars in a Sample of Lebanese Population	Dr. Samer elkork
2:10 pm – 2:20 pm	Bioactive Glazing Material: Impact on Antimicrobial Properties and Mechanical Performance of 3D-Printed Denture- Base Resin	Dr. Dhai Albishri
2:20 pm – 2:30 pm	Students' Perceptions on the Integration of Critical Thinking within the Dental Curriculum in Saudi Arabia: A Cross-Sectional Study	Dr. Raghad Almotiri
2:30 pm – 2:40 pm	Molecularly-Engineered Thiazole-oxadiazole Hybrid Analogues with Kinetic Profiling as Dual Biofunctional Modulators of Salivary α -Amylase and Biofilm Activity in Resin-Based Composites	Dr. Faisal Alharamlah
2:40 pm – 2:50 pm	Evaluating AI-Assisted Diagnostic Models for Caries Detection on Bitewing Radiographs: A Systematic Review with Meta-Analysis	Dr. Hashim Al-Hashimi
2:50 pm – 3:00 pm	Mechanical, Remineralizing, and Antibacterial Properties of Microhybrid Resin Composites Enhanced with Natural Extracts: An In Vitro Study	Dr. Dana Al akloby
3:00 pm – 3:10 pm	Mechanical and Physical Properties of 3D-Printed Permanent Crown Resins Pre- and Post-Thermal Aging: An In-Vitro Study	Dr. Rima Alahmadi
3:10 pm – 3:20 pm	Effect of Modified Glazing Material on Streptococcus mutans Biofilm Formation and Mechanical-Physical Properties of 3D-Printed Permanent Restorations	Dr. Noor Alsuhaime
3:20 pm – 3:30 pm	Comparative Evaluation of the Remineralization Potentials and Cariogenicity of Cow's Milk and Plant-Based Milks: An In Vitro Study	Dr. Ahmed Alsunaidei
3:30 pm – 3:40 pm	Clinical Performance of Commercially Available Bioactive Dental Sealants in Comparison to a Conventional Dental Sealant: A Randomized Clinical Trial	Dr. Salem Bajunaidei
3:40 pm – 3:50 pm	Efficacy of 3D-Milled Zirconia Post-and-Core in Oval-Shaped Maxillary Central Incisors at Different Post Lengths: An In Vitro Study	Dr. Lamya AlSaleem
3:50 pm – 4:00 pm	Gingival Health Assessment and its Related Risk Factors among a Group of Lebanese Autistic Children: A Case-Control Study	Dr. Ranim Kassab
4:00 pm – 4:10 pm	Margin adaptation, bond strength and anti-enzymatic action of novel self-sealing dental composite	Dr. Arwa Almusa
4:10 pm – 4:20 pm	Associations between Oral Behavioral Check List, Jaw Functional Limitation, and Graded Chronic Pain Scales among Adolescents with Temporomandibular disorders: A cross-sectional study	Dr. Jasem Alburaih
4:20 pm – 4:30 pm	Quantitative epithelial analysis distinguishes OKC and ameloblastoma	Dr. Abdulaziz Aloshaywi
4:30 pm – 4:40 pm	Theory-Based Oral Health Program for Special Education Teachers in Riyadh, Saudi Arabia	Dr. Modhi Munshi
4:40 pm – 4:50 pm	Outcome of Nonsurgical Root Canal Treatment Using Cone Beam Computed Tomography: An Ambispective Cohort Study	Dr. Laila Almufleh
4:50 pm – 5:00 pm	Oral Health Beliefs and Behaviours among Adults with Sickle Cell Diseases in Ireland	Dr. Hussain IbnAhmad

*8 minutes for each presentation and 1-2 minutes for Q/A
